

Group Insurance & Risk Mitigation Manual

Healthcare, Disability Programs & Corporate Underwriting Standards | Document ID: HR-GIM-2026-V1

1. Comprehensive Health Insurance Programs

1.1 Medical Plan Selection (PPO vs. HDHP)

The Company provides a multi-tiered corporate group health insurance architecture, allowing employees to select plans tailored to their demographic profiles:

- **Preferred Provider Organization (PPO):** Features low deductibles, fixed copays for routine office visits, and a broad network of medical providers without requiring specialist referrals.
- **High Deductible Health Plan (HDHP) with Health Savings Account (HSA):** Designed for flexibility, pairing a higher deductible with an HSA. The Company kickstarts this account with an annual seed contribution of \$1,000 USD for individuals and \$2,000 USD for families, allowing tax-advantaged savings for medical expenses.

1.2 Dental and Vision Care Provisions

Dental Care covers preventative cleanings at 100%, basic restorative procedures (fillings, root canals) at 80%, and major services (crowns, orthodontics) at 50%, up to an annual maximum benefit of \$2,000 USD per covered individual. Vision Care provides a comprehensive annual exam fully covered, along with a \$200 USD annual allowance for prescription lenses, frames, or contact lenses.

2. Life and Accidental Death & Dismemberment (AD&D) Insurance

The Company provides basic life and AD&D insurance at zero cost to the employee. The coverage amount equals two times (2x) the employee's annualized base salary, capped at a maximum of \$500,000 USD. Employees have the option to purchase supplemental voluntary life insurance for themselves, their spouses, and dependents up to specific guaranteed issue limits without medical underwriting during initial onboarding.

3. Disability Insurance Frameworks

3.1 Short-Term Disability (STD) Coverage

Activates on the 8th day of a qualifying illness or injury, replacing 60% of pre-disability base earnings for up to 26 weeks. This coverage bridges the gap between acute onset of illness and potential long-term care needs.

3.2 Long-Term Disability (LTD) Protection

Activates automatically upon the expiration of STD (after 180 days of continuous disability). The LTD plan replaces 60% of base monthly salary up to a maximum cap of \$10,000 USD per month, continuing until the employee reaches social security retirement age or recovers.

Corporate Acknowledgement & Attestation Statement

Every employee must log into their HRIS dashboard within fourteen (14) calendar days of onboarding to formally sign and date the acknowledgement ledger for these corporate policies. Failure to review and attest to these policies constitutes a compliance violation and may subject the employee to the progressive discipline framework.
